# Ignition Interlock Tips.

- ▶ Wait 15-20 minutes after you eat, drink or put anything in your mouth before testing.
- ▶ Always rinse your mouth with water before testing.
- ▶ Don't apply or use alcohol-based products around the device—think mouthwash, hand sanitizer and perfumes.
- ▶ Do not allow someone besides the driver to provide a sample.

- ▶ Do not remove or disable the device. Your monitor will be notified.
- ▶ Do not leave your vehicle running unattended, you can miss a random retest.

\*Offer good for up to \$100 of installation costs after mail-in rebate where available. 6 month minimum lease required. \*\*Offer good for first bi-weekly payment when selecting bi-weekly payment option. \*\*\*Some services not allowed in all states or available in all states. All offers subject to change. Call for details. Minimum lease required. Not applicable to voluntary leases. Limited time offer, call for details.
